

General Terms of Use

In the section Terms of Use you will find our norms, advise and recommendations to make sure that you and others after you can enjoy our motorhomes in the best way possible.

We recommend you to read it thoroughly before renting. If you have any doubts, please send us an email. In any case, you will find a copy in the documentation handed over with the vehicle.

General use of your motorhome.

- Although we select robust and comfortable motorhomes for your enjoyment we would like to recommend you to take care of it the best way possible so that others after you can enjoy it in the same way and also to avoid unnecessary reparation and cleaning costs.
- Although it is possible and allowed, it is better not to exceed 100 km/h for your own safety and comfort. In the beginning it can be difficult but you will see that after a while you will relax and you will enjoy the trip and views a lot more.
- Keep your surrounding clean, tidy and secure at all times. It is a reduced living space which you will enjoy more if you keep it in good order.
- Do not make any open fire (candles) on board. Wind gusts are frequent in a motorhome.
- Do not smoke in the interior. We will charge you the specialized cleaning costs.
- Control your children's conduct at all times.
- Do not allow animals to enter even if it is just for a moment (clients after you may be allergic). Specialized cleaning costs run at your expense.
- Be careful with the excessive use of alcohol and drugs. You are not at home.
- A discussion (specially at the beginning of your trip) is a normal phenomenon between fellow campers because of work stress, the stress of preparing your trip, dense traffic or the reduced space. Do not be discouraged and choose dialogue. You will see how a trip in a motorhome can be very therapeutic for your whole family.
- Please respect your surroundings: do not leave trash, empty your deposits only in the designated areas, do not make noise that can affect your surroundings and do not enter in prohibited places.
- The exterior must be cleaned manually. It is strictly forbidden to enter a car wash.
- Check your oil and tires every now and then.
- Make sure you use the right deposit and fuel when you fill up your fuel tank. Any cleaning costs run on your account.

Inspection before driving off.

Before initiating your route, walk around your motorhome to check everything is in good order. Convert it into standard routine!

- Doors and windows closed.
- Leveling blocks withdrawn and stored.
- Check skylights, windows and doors.
- Store objects that can slide or fall.
- If the fridge does not change automatically, change it to 12V.

- Passengers are wearing their seat belts.
- Make sure you have space enough (branches, buildings etc.)to maneuver before moving the vehicle.
- Once you have abandoned your spot: stop, get out and check that you have not left anything (waste, shoes, etc.)

Driving.

- You should be in good condition to drive: that is without alcohol and/or drugs in your body (also from the day before) and respecting the 7 advices to rest, of the Spanish Traffic Board.
- Wear closed shoes e.g. no slippers.
- Drive at a controlled velocity and adapt to the local legal limits.
- Make sure your windows and rear view mirrors are clean of dirt, steam and ice.
- On route be aware of sudden wind blows, steep descending slopes, and safe distances.
- Do not forget the dimensions of your vehicle especially on turns, closed parking spaces, bridges, toll booths and gas stations (shop).
- When maneuvering make sure to use the rear view camera (if available) and co-pilot giving directions from the outside.
- Make way whenever possible if you are holding up other cars behind you.
- On route an active co-pilot is very useful. Please be patient with each other. If you make a mistake, go back calmly when possible and start over again. Remember that you are on a holiday, you are not in a hurry.
- When you arrive at towns and villages it is highly recommendable to go to the motorhome and camper areas, if existing or park at suitable parking areas. Asking local people you will find that they are happy to help you.
- There are numerous on and off-line tools To get to know the motorhome and camper areas where you can find your basic needs as a camper.

Sleeping in your motorhome: camper areas, camping areas and wild camping.

The directives of the Spanish General Traffic Board on parking motorhomes are manifested in their compulsory instruction: [Instrucción 08/V-74](#). Be aware that local instructions may restrict transit and parking of motorhomes due to use, dimensions or seasons and specific areas may be created. Inform yourself locally.

Basically when you park your motorhome:

- Do not use your leveling blocks to level your vehicle. However, they can be used on slopes.
- You are not allowed to exceed the dimensions of your vehicle by opening doors and windows although you can open them as long as they do not surpass the vehicle's dimension.
- Do not open your sunscreen or camping elements (chairs, tables etc.) in the exterior of your vehicle and do not use your door step.
- It is allowed to sleep and cook in the interior of your vehicle as long as you do not produce molesting sounds and smells.

Safety.

Make sure you close your motorhome thoroughly before commencing any activity.

Do not leave your keys in the ignition without vigilance, as might happen 'it was for just a moment' in a gas station.

If you have doubts about staying somewhere, continue searching for a better place.

Avoid sleeping at gas stations.

The 7 recommendations of the Spanish Traffic Board on resting.

1. SLEEP: Before starting your journey sleep at least 7 hours and avoid traveling straight after a working day.

2. TEMPERATURE: Procure to have a pleasant temperature - around 24°C -, and ventilate once in a while to avoid dry air in your car.

3. SYMPTOMS: Knowing the symptoms is the best way to avoid fatigue: discomfort, constant blinking, cramps, driving errors, driving 'on the autopilot' and not perceiving the actual traffic situation.

4. STOPS: While traveling, stop every 2 hours or 200 kilometers to stretch your legs.

5. HYDRATION: Make sure you are well hydrated as the absence of liquids provokes less attention, headache and muscular fatigue.

6. REFRESHMENTS: When you stop drink a refreshment as it will not only hydrate you, it will also give you the glucose necessary to improve your attention.

7. NO ALCOHOL: Never drink alcohol if you are driving and consult your doctor if you are taking medicine.
